**Abstract.** Are there Unicorns? Real Unicorns?? Some say yes, some say no! In the end you have to believe to feel the wonder Unicorns bring to your live and stay with this believe to stay happy! LLU brings unicorns to crypto. With a strong believe anything is possible, even Unicorns! It will bring you the feeling of being rich. Rich in Friendship! Rich in Passion! Rich in Magic! Rich in Exclamation marks!!!!

**1. Introduction**

Unicorns are the best creatures in the Universe. We trust them. They never lie. They never scam. They never rug. But they are unpredictable. And they like taxes. We found them, when going after the question: „Where does all those taxes come from“

We discovered it. They come from unicorns. They do their magic on BSC. Now we managed to create a 100% truly unicorn token. The unicorn tax magic of LLU (Light Lemon Unicorn) is so unique, that it is hard to explain, you have to feel it.

The tax is like a unicorn. You can never foresee its exact movement because they are truly magical. It's taxing you harshly but fairly, but soft and rainbowy at the same time.

Just like Unicorn poo. (Which by the way in its dried form is known as hopium - see roadmap/merch-shop)

**2. Transactions**

Buy on PooCoin, which has auto-slippage. Unicorns love anything in connection with poo, because they fart rainbows in the action. Who does not love rainbows?

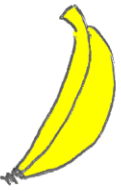

Sometimes taxes makes pooCoin let poo going back up; like this sometimes happens with humans. Bogged does not care, the transaction will always go through at Bogged; if PooCoin fails.

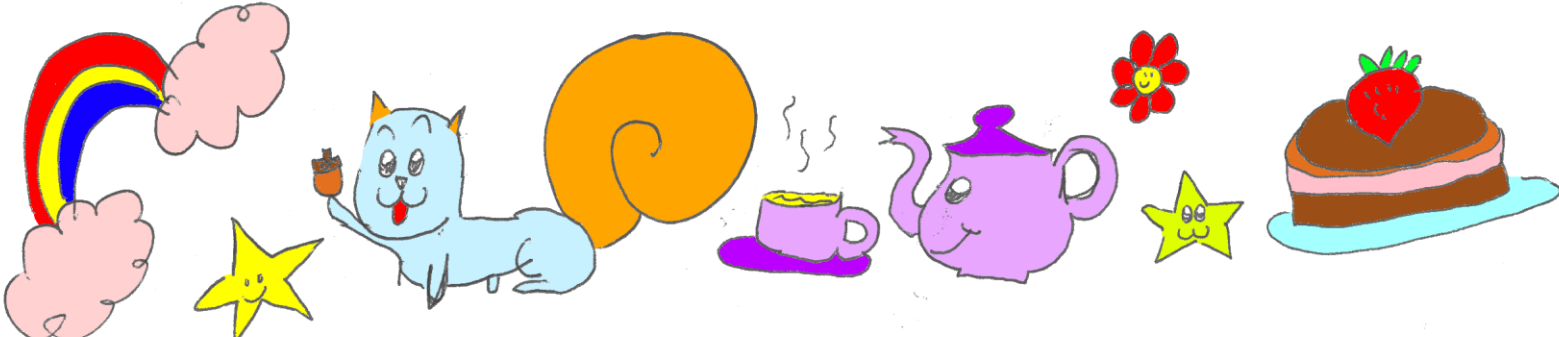

**3. Light Lemons Unicorns Rainbow Recoloring Ritual (LLURRR)**

The LLURRR is a ritual that has to be done weekly to keep the Rainbow fresh in colors.

As you all know, you find at the end of the rainbow a pot filled with gold. Its gold it gets from unicorn taxes. Ones a week all the beautiful unicorns come together to devour this gold, because by digesting gold, Unicorns are farting the brightest colors for the rainbow.

**5. Proof of Poo and Incentive**

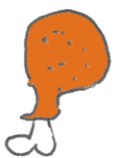

Unicorns are truly magical. And so is their poo. They hide, when defecating, you never saw one poeing. But we invented Poonicorn. With those we were finally able to lay our hands on this delicate stuff. And they, who hold long, will get rewarded by the great gracious light lemon unicorn in fresh unicorn poo. It actually looks like cupcakes. Frosted with sugar and chocolate. And raisins in it (can contain nuts). Really fluffy with a sweet smell, best served warm, fresh out of the unicorn.

**6. Nicework**

Unicorns have rules that that makes living together in friendship easy:

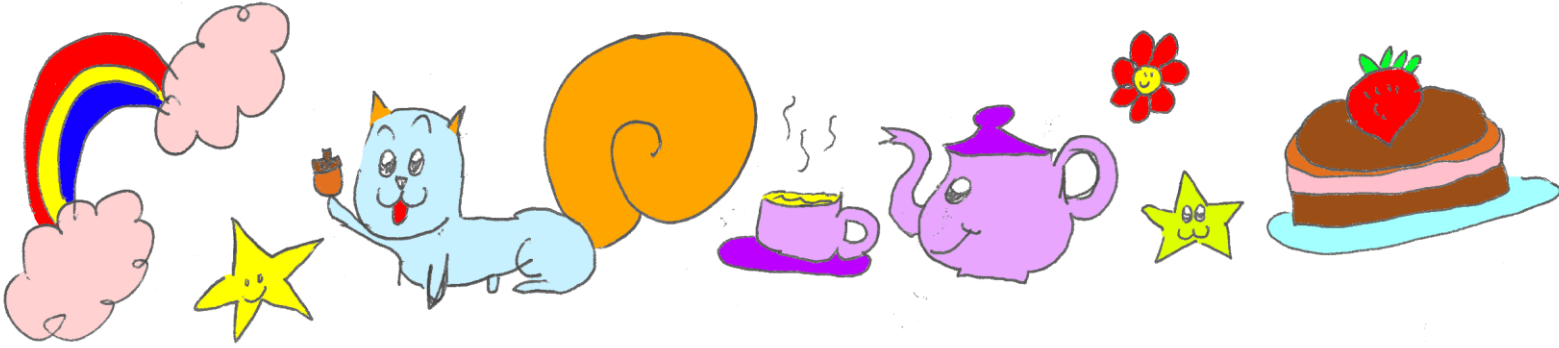

- A. Don't offer any proposals unless you want to anger my unicornette, I'm happily married, thank you.
- B. In the unicornverse they don't drive lambo's. There lambo's are for the plebs and the prosperous travel over rainbows and fart power.
- C. Mar Ke'ting is an ancient art of fighting off the waves of the ocean. The sea-born unicorns taught it to mankind, so that the flood won't wash away all their belongings. Nowadays it is used to wash ashore more belongings. Which makes mind and world small. Unicorns are not happy with that!

**7. Calculations and Tokenomics**

Sadly Unicorns are very bad with numbers. They live from LLURRR to LLURRR. The meaning of numbers are like hieroglyphs to them. They measure in love and passion. So what they give to the world will not be countless but counted (here is an exact number), what you will be taxed is what you deserve (The buying Tax will be variable between 0% to 15%, the selling tax will be variable between 0% to 90% (90% when dump fast)), what you leave behind will feed the unicornland (4% Redistribution, 3% marketing wallet, 93% In Light Lemons Unicorns Rainbow Recoloring Ritual (Buyback and burn))

Unicorns are seaborn and they are friends to all creatures. Unicorns speak every language, they can communicate with every living being. Except for whales! They are not whalecome. When you ask unicorns, they all belong in whalehalla. They think whales (are) dump. So they have a whale protection system (Max wallet size (to buy in): 4M) and you can not infuriate the unicorns with high amount actions they do not even have a word for ( Max sell amount per transaction: 200K)

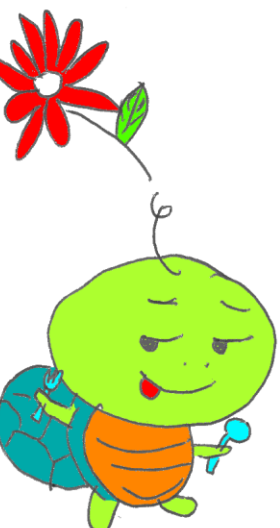

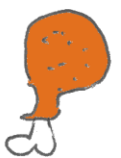

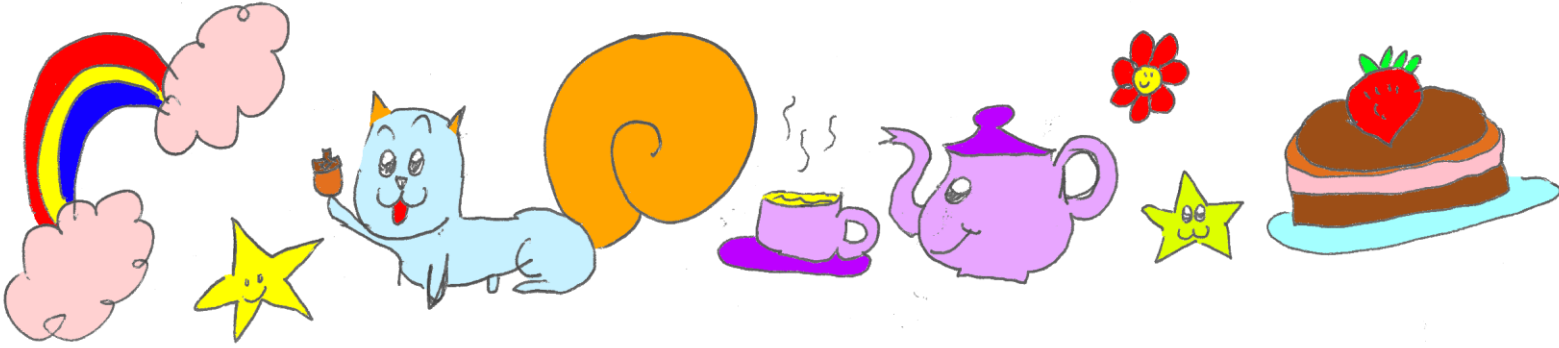

Unicorns live from cupcake to cupcake. They run on pure friendship and glitter. As they are very old creatures and eating is the boinking of seniority, they have together tea and cupcakes as mating ritual. When they pair in the end, they have a role play. One of them has to be the Big Ugly Smelly Dude (BUSD). Don't ask me, they like it. So to keep it save Light Lemon Unicorn is always paired with BUSD.

**8. Roadmap**

- Unicorns are unpredictable but rumor says before the midst of November a unicorn may rise its horn out of the mystic foggy swamps of bsc to bring sunshine and sweets to those who seek danger and the dentist at Peanut Butter Launchpad.
- Going to Nevada on a unicorn holding a big bag of bananas.
- Being perfect.....Imperfectly perfect
- Rainbowy when aping in; harsch when aping out
- Be a Zen-Unicorn to wait for the right moment and a Lightning-Unicorn to be the first out!
- Be a honeypot simulator driven by the community.
- CZ agrees to change name to Unibance
- USA is going to dump the dollar for LLU
- Merch-Shop (Hopium)

**9. Conclusion**

Here we are open and fair; we all come out and declare our love to unicorns.

Unicorns believe in the good side of people. Unicorns give positive energy in public, so those disturbed souls can feel they have a heart, they could rely on. Everybody has a bit of a unicorn inside their souls, they just have to know and tap into that bit. Thats the first step to just feel the magic of friendship and diabetes caused by cupcakes.

The poor people jumping into this will have to watch their investment keep going up and they won't be able to stop it. With LLU you have no choice! When chart going down you don't want to sell because of tax, when it's going up you don't want to sell because it goes up. It's like a jail for pajeets. You will be force fed rainbow cupcakes here if you do just nothing.

...in Unicornverse you do not go to the moon. The moon comes to you.....
